The TUFFASS Hurricane is a trailed air blast sprayer, featuring a brass Comet pump.

Our exclusive TWIN turbine fans have been specially designed to give the best and most effective coverage in macadamia and avocado plantations, as well as any other tall plantations in the world today.

It is ideal for the tall and thick canopies that these trees provide.

OPTIONS AVAILABLE:

- Hydraulic brakes
- Computer controls
- Wide angle drive shaft
- Dual wheels with steering axle suspension
- 500mm turbine fan
