

TUFFASS CH 260 Wood Chipper

The CH260 is a large, heavy duty PTO driven woodchipper, designed to chip Australian timber and prunings up to 260mm (10") in diameter. Requires 60HP and above to operate.

FEATURES:

- Safety equipment: emergency shutoff bar
- Adjustable exit chute
- Adjustable blades

OPTIONS AVAILABLE:

- **Manual infeed chute** (features two heavy duty rollers, and can easily feed heavy pruning's such as limbs and branches)
- **Hydraulic infeed chute** (The reinforced hydraulic rollers can feed in both forward and reverse, and includes a swing open chute for easy storage and maintenance)
